Transitional and final provisions

- (1) If the number of applications submitted is lower than the capacity limit of a study programme, the faculty may change the deadline set in the admission procedure announcement for the submission of applications to that study programme to a later date before its expiry. In such a case, the information will be published on the faculty's website <https://www.af.czu.cz/en/r-9372-study> in the form of an addendum to the admission announcement.
- (2) If, after enrolment, it is found that the capacity limit of the programme has not been filled, the study may be offered to other applicants who have met the point criteria for admission but have not been admitted for capacity reasons, according to the rank achieved in the entrance examination, regardless of whether or not the applicant has submitted a request for a review of the Dean's decision. However, the Dean of the Faculty is not obliged to fill the vacant places with additional candidates.
- (3) Any new decision on admission will be notified to the applicant via the university information system at <https://is.czu.cz/prihlaska/?lang=en> no earlier than 22 June and no later than 30 June 2023.
- (4) Each master's study programme will be open if 5 or more students enrol in it by the set enrolment deadline. In the event of fewer students enrolled, the Dean will decide whether or not to open the programme.
- (5) If a study programme is not opened due to capacity reasons, applicants enrolled in that programme or students already enrolled will be offered to study a related programme. Affected applicants or newly enrolled students will receive the information via their account in the university information system and will also be notified by sending the information to their e-mail address provided in the application form.
- (6) This Ordinance is a continuation of Ordinance 5/2022 that was approved by the Academic Senate of FAFNR 5 October 2022 and comes into force and effect on the day of signing by the FAFNR Dean.

In Prague, 9 March 2023.
