UNIZD Marine Research Living Lab

May–June 2023 / September 2023

Hands-on

Living Lab

Virtual part

Five lectures to learn about climate change, marine pollution, food production, and the importance of marine ecosystems – an online exam qualifies participants for the physical part of the program.

Physical part

- 5-day field study ✓
- marine communities monitoring ✓
- physical and chemical analyses of seawater ✓
- collecting and analyzing washed-up litter ✓
- developing solutions for mitigating the challenges faced by marine ecosystems ✓
